Name of applicant
of Las Vegas, County of Clark,
State of Nevada, hereby make s application for
permission to appropriate the public waters of the State of Nevada, as
hereinafter stated. (If applicant is a corporation, give date and place
of incorporation.)

1. The source of the proposed appropriation is Las Vegas Artesian
Name of stream, lake, or other source
Basin

2. The amount of water applied for is .030 second-feet.
One second-foot equals 40 miners' inches

3. The water to be used for air-conditioning (heating and cooling)
Irrigation, power, mining, manufacturing, domestic, or other use

4. The water is to be diverted from its source at the following point:
NE $\frac{1}{4}$ NE $\frac{1}{4}$ Section 4, Township 21 South, Range 61 East, M.D.B.&M, or at
Describe as being within a 40-acre subdivision of public survey, or by course and distance to a section corner. If on unsurveyed land, it should be so stated.
a point from which the NE corner of Said Sec. 4 bears North 69° 00'
East a distance of 1065.0 feet.

IF THE WATER IS TO BE USED FOR IRRIGATION, SUPPLY THE FOLLOWING INFORMATION:

(a) Number of acres to be irrigated is

(b) Description of land to be irrigated
Describe by legal subdivision, or if on unsurveyed land it should
be so stated and a description provided in accordance with special instruction from the State Engineer when application is returned for correction.

(c) Use will begin about _____ and end about _____, of each year.
Month Month

IF WATER IS TO BE USED FOR POWER, MINING, STOCK WATERING, OR OTHER USE, SUPPLY THE
FOLLOWING INFORMATION

(d) Power to be developed is _____ horsepower.

(e) Place of use NE $\frac{1}{4}$ NE $\frac{1}{4}$ Section 4, Township 21 South, Range 61 East,
Give location of place of use by legal subdivision M.D.B.&M.

(f) Point of return of water to stream NE $\frac{1}{4}$ NE $\frac{1}{4}$ Section 4, Township 21
Describe in same manner as point of diversion
South, Range 61 East, M.D.B.&M, or at a point from which the NE corner
of said Sec. 4 bears North 69° 30' East a distance of 1098.00 feet.
(g) State number and kinds of animals to be watered

(h) Use will begin about Jan. 1 and end about Dec. 31, of each year.
Month Month

(i) Remarks

DESCRIPTION OF PROPOSED WORKS

These wells will be drilled to a depth of approximately 80 feet and will

State manner in which water is to be diverted, whether by dam or other works, whether through pipes, ditches, flumes, or other conduits. If water be cased and cemented to this depth with perforations in both wells at is to be stored in reservoirs, it should be so stated and the location of the reservoir should be given with reference to the legal subdivisions. the same level.

5. Estimated cost of works \$1500.00

6. Estimated time required to construct works 30 days

7. Remarks These wells are to be used as air-conditioning wells. The source well and the return well will both be cased and cemented down approximately 80 feet. The water will be taken from the source well and piped through the system and returned to the source through the return well at the same level without consuming any of the water. These wells will be used for air-conditioning (heating and cooling) in conjunction with a commercial building now under construction on the site.

APPROVAL

OF STATE ENGINEER

Bulletin
DATE Jan 17, 1997

This is to certify that I have examined the foregoing application,

and do hereby grant the same, subject to the following limitations and

This permit is issued subject to all existing rights on

conditions: the source. This source is located within an area designated by the State Engineer pursuant to Sec. 4 of the 1939 Ground-Water Act (Chap.

178, Stats. 1939 as amended); therefore the State retains the right to regulate the use of the water herein granted at any and all times. It is understood that the use is non-consumptive and is for air-conditioning. It is further understood that the water be returned through a return well to the same aquifer from which it is obtained and the perforations in the return well be so constructed to meet this condition; that the system be a closed system so that no pollution can occur and that if there is faulty construction of the wells or system so as to cause pollution to the ground water, the State Engineer is empowered to cause the wells to be plugged.

The amount of water to be appropriated shall be limited to the amount

which can be applied to beneficial use, and not to exceed 0.03

cubic feet per second.

Actual construction work shall begin on or before May 23, 1956

Proof of commencement of work shall be filed before June 23, 1956

Work must be prosecuted with reasonable diligence and be completed on or before May 23, 1957

Proof of completion of work shall be filed before June 23, 1957

Application of water to beneficial use shall be made on or before

May 23, 1957

. Proof of the application of water to beneficial use must be filed with State Engineer on or before June 23, 1957

WITNESS MY HAND AND SEAL this 23rd day

of November, 1955

State Engineer.

Proof of commencement of work filed MAY 25 1956

Proof of Completion of work filed MAY 25 1956
